

Table of Content

Welfare and Ethics I			
Author	Title	Number	Page
Ahola	Group housing may impair fur quality in raccoon dogs	I – 4	4
Korhonen	Comparison of hall and shed as housing environments for blue foxes	I – 6	7
Jeppesen	Mink welfare improved by combined implementation of several small initiatives	I – 7	11
Hansen	The anticipatory behaviours of mink expecting a positive or negative reward	I – 8	19
Trapezov	Have fur bearers become domesticated ?	I – 9	24
Plotnikov	Evaluation of comfort of fur-bearing animal keeping by analyzing behaviour	I – 11	33
Trapezov	Conflicts arise between minks of different behavioral types	I – 12	36
Trapezov	Effect of coat color mutation in mink on the adrenal cortex function at pelting time in siberian climate	I – 13	42
Bespyatykh	Young nutria behaviour in runs of different types	I - 14	44

Health II			
Author	Title	Number	Page
Møller	Management of health in mink, <i>Møller</i> (keynote)	II – 1	50
Christensen	A preliminary linkage map of the mink (<i>Mustela vison</i>) genome	II – 2	58
Slugin	Not diagnosed stage of aleutian disease.	II – 3	61
Fedoseeva	Characteristics of some morphological and biochemical indices of marmots bred in cages	II – 5	65
Bis-Wencel	A level of some indices of the oxidation state in blood plasma of mink at slaughter period under the definite maintenance and feeding conditions	II – 6	68
Rouvinen-Watt	Mink nursing sickness survey in North America	II – 7	71
Hynes	Body condition and glycemic control in mink females during reproduction and lactation	II – 8	79
Clausen	Wet kits in mink, a review	II – 10	87
Domski	Oral immunization of fur-bearing animals against salmonellosis	II – 14	91

Nutrition III			
Author	Title	Number	Page
Polonen/ Sonderup/ Koenen	A systematic approach to sustainable fur farming, with special reference to feed and feeding (keynote)	III - 1	96
Brzozowski	Influence of using enzymatic preparations: α -amylase, β -glucanase and xylanase on fur quality and nutrient digestibility in polar foxes	III - 2	100
Hansen	Different ratio between n-6 and n-3 fatty acids in diets for lactating mink (<i>Mustela vison</i>) dams – effect on milk and kit tissue fatty acid composition.	III - 3	103
Laerke	Physico-chemical properties of different carbohydrate sources in the gut of mink	III - 4	110
Valaja	Effect of lactic acid bacteria and β -glucanase treatments on the nutritive value of barley for growing blue fox	III - 5	116

Nutrition III			
Author	Title	Number	Page
Sandbol	Ideal Protein for Mink (<i>Mustela vison</i>) in the Growing and Furring Period.	III – 6	120
Rouvinen-Watt	Effect of feeding intensity on body condition and glycemic control in mink <i>Mustela vison</i>	III – 7	129
Nielsen	The effect of ad libitum and restricted feeding on growth curves and growth rate curves in mink selection lines	III – 8	136
Leoschke	Sodium BiSulfate As A Mink Feed Preservative	III – 9	140
Ahlstrom	Gas-producing microorganisms in formic acid preserved poultry by-products	III – 10	142
Kulikov	The importance of protein for young mink fed with dry feed	III – 12	147
Kvartnikova	Nourishing qualities of APK concentrate for minks, cubs	III – 13	150
Møller	Individual ad libitum feeding of male + female pairs of mink kits during the growth period increases feed intake, weight gain and feed efficiency	III – 14	154
Nenonen	Effects of intensive fasting and methyl groups of feed on liver metabolism and welfare in breeding blue fox (<i>Alopex lagopus</i>) vixens	III - 15	159
Bis-Wencel	The biochemical parameters in serum of mink fed high energy feedstuff with antioxidants and preservatives supplement.	III – 16	165
Clausen	Correlation between liver fat and dry matter in mink (<i>Mustela vison</i>)	III – 17	168
Damgaard	Effects of feeding strategy on behaviour, physiological parameters and feed residues in mink females	III - 18	170
Glover	Regulation of lipid and glucose metabolism in the mink (<i>Mustela vison</i>) – Sequence analysis and development of molecular probes	III - 19	174
Hejlesen	The effect of protein level on N-balance in adult mink (<i>Mustela vison</i>)	III - 20	182
Skrede	Bacterial protein produced on natural gas as a protein source in dry diets for the growing-furring blue fox	III - 21	188

Genetics and Reproduction IV			
Author	Title	Number	Page
Hansen	Stochastic simulation of breeding schemes to improve economic genetic merit in mink production	IV – 1	194
Johannessen	Inbreeding in a commercial fur animal breeding programme	IV – 2	201
Peura	Genetics of litter size, age at first insemination and animal size in blue fox (<i>Alopex lagopus</i>)	IV – 3	206
Murphy	Diapause, implantation and placentation in the mink: A critical role for embryonic signaling.	IV - 6	211
Nowakowicz-Debek	The effects of air pollutants on the cortisol and progesterone secretion in polar fox (<i>Alopex lagopus</i>)	IV - 7	218
Sugrobova	The influence of antioxidant emicidin on minks' physiological condition and reproduction	IV - 8	222
Sciesinski	The measurements of the skin electrical conductivity in the acupuncture points affecting reproduction in female polar foxes, <i>Alopex lagopus</i> , during the estrus period	IV - 9	225
Farid	Isolation of microsatellite markers for American mink (<i>Mustela vison</i>)	IV - 10	228
Felska	Liter size, weaning success, and nursing mortality in chinchillas (<i>Chinchilla lanigera</i>) in relation to cage illumination	IV -11	234
Jakubczak	Evaluation of pastel fox breeding results in Poland - body confirmation	IV - 12	238
Jezewska	Genetic variability of chosen conformation traits in chinchilla	IV - 13	244

Genetics and Reproduction IV			
Author	Title	Number	Page
Socha	Genetic and phenotypic parameters of animal size and fur traits in Common Silver Fox (<i>Vulpes vulpes</i> L.)	IV - 14	248
Socha	Genetic parameters of size and fur quality in a mink population (<i>Mustela vison</i> sch.)	IV - 15	251
Sulik	Comparison of reproduction management intensity of three genetic lines of female chinchillas (<i>Chinchilla lanigera</i> M.)	IV - 16	254
Szeleszczuk	Morphological changes of spermatozoa in breeding Raccoon dogs semen during cryopreservation	IV - 17	259
Szeleszczuk	Induction of estrus and ovulation in breeding chinchilla by GnRh analogues	IV - 18	263
Collins	Growth parameters and organ size of American marten (<i>Martes americana</i>) born in captivity	IV - 19	266

Fur Properties V			
Author	Title	Number	Page
Blomstedt	The influence of pelting time on pelt characteristics in blue fox (<i>Alopex lagopus</i>)	V - 2	272
Trapezov	Population genetics and registration of fox pelts in warehouses. (Khlebnikov's travel notebooks revisited in terms of the Hardy-Weinberg law by Borodin)	V - 3	277
Kondo	Hair density and morphology of medulla in Mustelidae	V - 4	283
